| *futurefast*

clariondoor IS *futurefast*.

BECAUSE TODAY, BEING *fast* IS NEVER *fast* ENOUGH.

What does *futurefast* mean?

The speed of change is outpacing the ability to respond. ClarionDoor places our customers ahead of the change. We are the *fast* solution you need today and the *futurefast* solution you will need tomorrow.

THE **STATUS QUO** SYSTEM

STATUS QUO

Costs **MILLIONS** of dollars

MULTI-YEAR projects

80% project **FAILURE RATE**

LIMITED client references

Requires **LARGE TEAMS** to implement

IT **INTENSIVE**

EXTENSIVE coding to manage products

MANUAL process for product changes

Insurance companies typically try to do too much on one system, believing that “this one” will solve all their problems. On average, insurers spend **5 years or more** on implementing their new core system. **80%** of those projects fail, and **100%** of insurers still have problems in the end.

THIS IS WHY STATUS QUO DOESN'T WORK.

HOW WE ARE **DIFFERENT**

Simple, **FIXED MONTHLY** subscription

Go **LIVE IN 8 WEEKS** or less

ZERO failed projects

100% REFERENCEABLE clients

Only **1 PERSON** needed to implement a project

CONTROL in the Business's hands

NO-CODE solutions

AUTOMATES product innovation & change

FOUNDED IN
2010

ClarionDoor was founded by insurance automation experts with the vision to revolutionize product innovation, sales, and distribution in the insurance industry.

PRODUCTS

Plug and play integration of the tools you need.

cdrating

If you have to schedule down-time to launch a product to market, **something is wrong.**

OUR IMPLEMENTATION PHILOSOPHY is to use sensible processes that actually work and staff projects efficiently. Many traditional solution providers claim to be efficient, yet they require massive teams to implement their solutions. At ClarionDoor, we only need one person to implement your project and can get you live in production in about 8 weeks.

DISTRIBUTE
